Weather observations

Take weather observations several times a day for a few days.

Once in a while, draw the weather!

Do you notice any relationship between pressure and clouds/rain? How about between clouds and temperature? For things you can't easily check outside, use a weather station or check weather.gov. Try to make predictions!

DATE	TIME	CLOUDS	RAIN/SNOW	TEMPERATURE	HUMIDITY	WIND DIR.	WIND SPEED	PRESSURE	DRAWING
